WEDNESDAY, OCTOBER 4, 2017 · METROPOLITAN WEST · NYC

Title Sponsors

3DEXCITE will showcase HTC Vive luxury DS Virtual Vision Immersive Configurator. An experience built on exceptional digital quality is a game-changer. Realistic light, shadow and interactions make every second in VR more real and more appealing. Now, imagine a fully configurable product, or product line - available at your fingertips, in real-time. Magic. Consider the option to put that product in any city or landscape on earth at any time, in any climate. Okay, it's time to scale. Offer experiences on every device platform tethered by digital & experiential continuity everywhere. That's remarkable. Consider the upside.

ShadeCraft is a robotics and technology startup based in Los Angeles, California, with a mission to improve people's lives outdoors.

Our flagship product, SUNFLOWER, is the world's first robotic shading system that tracks the sun and boasts a full set of features that include GPS, Bluetooth and WIFI connectivity, a high definition camera, voice activation and controls, speakers to stream audio, controlled lighting and the ability to charge external devices - all powered through solar energy.

Almost Heaven Saunas have been manufactured in the Greenbrier Valley of West Virginia for 40 years. Known world-wide for exceptional quality and design, the company produces both indoor and outdoor traditional, water-over-hot-rocks dry/wet saunas. The company will be featuring a custom-designed barrel sauna for 6 persons at the Rand Luxury event. The unit is manufactured from red cedar, has an exterior porch, Finnish digital heater, and more. Almost Heaven Saunas is the world leader in traditional home saunas.

RESERVOIR
SWISS MADE

INTRODUCING RESERVOIR FOR THE VERY FIRST TIME IN THE US! RESERVOIR is the latest European sensation, launched at BaselWorld in Switzerland. This new Swiss watch brand is taking its inspiration from the functionalities and the aesthetic appeal of measurement instruments of bygone days. Contemporary designs to appeal to Millennials, related to the automotive, aeronautics, or nautical lifestyles. Beyond its incredible look, RESERVOIR introduces an innovative way to tell time, with 3 complications: retrograde minutes, jumping hours, and a power reserve indicator similar to a fuel gauge. An amazing collection, starting at \$3,700 retail.

Como Audio makes listening to music from an iPhone, Spotify, Bluetooth, the Internet, or FM Radio easier with the multi-room, hi-fi audio systems that let you access all of your music content with the press of a button. The Como Audio "Solo" and "Duetto," are designed to make all of the music content available today accessible, simply by touching a button and from one device. "Amico," the newest high-fidelity design offers all of the same features as the Solo in a portable, battery-powered, and lightweight system featuring great sound with eight hours of play-back. Also newly introduced is "Musica" with the press of a button, all music content is accessible from a variety of sources including Internet radio, Spotify Connect, Tidal, Deezer, Napster, and Amazon Music (available October 2017), FM RDS, Bluetooth with aptX and features AAC (Advanced Audio Coding) for better sound quality, and NFC for pairing devices. Musica also streams CDs to other Como Audio products throughout the home. For more information, visit www.comoaudio.com.

DOMIGO

The world deserves a better wireless speaker. With the belief that modern HiFi is an entry level term, Domigo has partnered with world-renowned acoustic engineer Peter Larsen to design a revolutionary new line of wireless speakers that go beyond HiFi. A9: Classic style meets modern design, and practical use of intelligent technology allows for a seamless integration of audio and visual in a minimalist presentation. Designed by world-renowned acoustic engineer Peter Larsen, the A9 wireless home system features “beyond HiFi” sound paired with an Android-based smart TV solution, together representing the perfect solution for the modern living room. A7: Modern minimalism should not come with sacrifice. The A7 represents the pinnacle of wireless speaker technology, featuring powerful sound designed by world-renowned acoustic engineer Peter Larsen, easy to use smartphone application control, and an artistic design destined to occupy even the most demanding home.

Echobox

Echobox is a company founded and run by music-lovers and audio geeks. We’ve been watching the personal audio industry for years, researching and analyzing everything from the types of music people listen to, how and where we listen, and, most importantly, the quality of audio that we’ve become accustomed to. What we’ve seen has excited, confused, and disappointed us, all at once. We’ve founded Echobox to help personal audio evolve to a level that does justice to good music. We plan on making good sounding audio products that are well-built and available at prices that are affordable to anyone who is passionate about music. Our first two products, the Explorer and the Finder, are designed to make real high-fidelity audio affordable.

Electra Meccanica

Electra Meccanica’s SOLO is an all-electric, single-passenger, commuter vehicle; not intended to replace your family car, but to supplement your driving experience. Approx. 80% of travel is done single passenger so the SOLO is designed as a commuter vehicle to get you to and from work and around town as needed at minimal expense. With a range of approx. 100 miles between charges SOLO is sure to fit the average commuters’ needs. Priced at approximately \$15,500 USD

Gama Aviation

Come experience being a pilot ‘The Gama Way’ in our virtual reality flight simulator! Gama Aviation Signature is the largest management company in the United States dedicated to aircraft management and executive charter. Whether traveling for business meetings, family time or a change of scenery, our desire is to create one seamless journey that effortlessly blends the ground and air components of a trip. Our aircraft management programs are individually tailored to the needs of each client, their flight profiles and their aircraft. With over 30 years of experience we know exactly how to respond to the complex challenges associated with operating business aircraft from the King Air to the latest model Gulfstream G650ER or Falcon 8X. As a preferred vendor of many well-known names in aviation, we understand that when things go ‘tech’, proximity and speed are required to get you moving again, safely. That’s why we invested in a comprehensive network of maintenance facilities positioned at key, high-volume locations around the country supported by over 30 mobile support vehicles. As you may gather, we’re not like the others; we’re redefining private aircraft travel with no boundaries, no compromise and no fuss - just one seamless journey.

HiMirror, the world's first smart beauty mirror, provides a revolutionary approach to daily beauty. By taking a makeup-free photo, HiMirror detects dark spots, red spots, dark eye circles, wrinkles, pores, fine lines and other complexion elements; offering in-depth, personalized skincare analysis based on the evolving condition of a user's skin. Additionally, you may get news and weather feed, stream Spotify, and watch YouTube tutorials on HiMirror. With five LED light settings, HiMirror is also a great makeup mirror with suburb lighting.

Helm Audio opens up an exceptional, professional-level audio experience to all users — offering premium audio tech at an unbeatable value. Designed by and for producers, DJs, and DIY audiophiles, our planar magnetic headphones and audio accessories are engineered for revolutionary performance and an immersive, dynamic experience.

Hisense USA is showcasing the new Hisense 4K Laser TV, designed to offer a new alternative for consumers looking for a big screen with premium movie-theater picture quality and sound with a seamless set-up experience. The Laser TV combines laser light and movie theater technology to feature 4K picture quality with HDR and UHD upscaling. It boasts a built-in tuner and Hisense's newly redesigned and fully customizable Hisense Smart TV platform, a fully implemented Harman Kardon sound system, and Texas Instruments' latest DLP chipset technology. Whereas other systems require excessive tuning and extensive installations, the Laser TV is truly plug and play, requiring little set up and quick access to thousands of hours of content. This is the future of TV.

ITEX is the largest marketplace for B2B cashless transactions in the USA and Canada. ITEX processes millions in sales for thousands of member businesses every month. We offer unique member benefits for increasing sales and reducing costs.

Kano creates computer and coding kits for all ages, all over the world. Our mission is to empower a new creative generation to make and play with technology, not just consume it. The company was born from the mind of a 6-year-old who wanted to make his own computer, as simple and easy as LEGO.

Our award-winning Computer Kit, a computer anyone can make, is used by over 150,000 households in more than 80 countries worldwide. People of all ages learn about technology and coding by making art, music and games, with simple steps and easy to follow challenges.

We will be bringing our 2017 lineup of products to The Luxury Technology Show, including our brand new Computer Kit Complete, a laptop anyone can make; the Pixel Kit, a 21st-century Lite-brite that can be controlled through code and the Motion Sensor Kit, which lets you use real-world movements and gesture to interact with your code creations. Over the last 3 years Kano makers have shared over 200,000 creations through our online platform Kano World. This add up to more than 31 million lines of code that anyone can inspect, remix and use to make their own creations.

Cuisine Catered By

LDV Hospitality is slated to open its signature modern Italian restaurant, Scarpetta, in fall 2017 at The James Hotel, located at 22 E 29th St, New York, NY. The restaurant's name is derived from the Italian expression, "fare la scarpetta," which means to savor a meal to the last bite.

The philosophy of Scarpetta's kitchen is to create bold flavors by amplifying the essence of seasonal ingredients. The signature pastas are made in-house daily and are paired with the highest quality, locally-sourced ingredients. Scarpetta's famous Spaghetti Tomato & Basil is nothing short of classic simplicity in both taste and preparation. The understated-yet-elegant approach to design creates an environment that is simultaneously stylish, welcoming, and inspiring, where guests can feel as though they are at a decadent dinner party.

Desserts By

Godiva Chocolatier was brought to America in 1966 and has been the leader in premium chocolate ever since. Godiva owns and operates hundreds of boutiques worldwide specializing in fine chocolates and chocolate gifts. Godiva products are also available for purchase at Godiva.com, through seasonal mail-order catalogs, by phone, and at select fine department and specialty stores. Enjoy samplings from the upcoming holiday season's collection at The Luxury Technology Show.

Spirits By

The official vodka and scotch sponsor of the LTS is the hottest new celebrity lounge in the Lower East Side, Boss Tweed's Saloon. Location: 115 Essex St. They will be relaunching soon. True Vodka: We use the highest quality grain alcohol called "Lux" for the production of TRUE Vodka. It is made from mixed rye and wheat grains in Italy and produced by a 7 times distillation process in Caffo's Distelleria Friulia. In addition to this, we use specially purified water from the springs of Tuscany, making TRUE the smoothest vodka on the market.

Fine Wine By
